Introduction

What is the Annual Statistical Report (ASR)

The Toronto's Police Service Annual Statistical Report is a comprehensive overview of police related statistics including reported crimes, victims of crime, search of persons, firearms, traffic collisions, personnel, budget, communications, public complaints, regulated interactions and other administrative information.

This report is one of several components of the ASR open data release. More detailed information, a comprehensive guide to this report and the rest of the components of the ASR can be found here: data.torontopolice.on.ca/pages/annualstatisticalreport

Source Data:

The crime related data contained in this report are derived from the Versadex records management system.

This system is continuously being updated and, as a result, some changes to statistics published in previous statistical reports should be expected.

Crime statistics contained in this report are based on the date that the information was reported or became known to police. This is done to minimize changes in reported statistics year over year and to enable some degree of comparability with statistics reported by Statistics Canada.

Other data comes from a combination of an automated and manual systems maintained by the individual units responsible.

Comparing Crime Statistics:

The Crime statistics in this report may be compared with previous Annual Statistical Reports however it is important to note that changes in methodology may occur over time.

The crime statistics in this report may not be directly comparable with crime statistics prepared by other agencies as differing methods of categorization, geographic, technical, data, and time constraints may affect comparability.

Detailed information pertaining to Statistics Canada crime reporting methodology can be found in the Uniform Crime Reporting Survey documents posted on the Statistics Canada website, <http://www.statcan.gc.ca>.

Appendix

Appendix A: Glossary of Terms

% Change:

The percent increase or decrease from the previous year.

% Clear:

The percent of offences reported in a given year which have been cleared.

Adult:

A person who is 18 years of age or older.

Appropriation

The percentage of gross operating budget expenditures by various Command level.

E.F.C.:

East Field Command (includes Divisions: D13, D32, D33, D41, D42, D43, D53, D54/D55)

C.D.S.A.:

Violations under the Controlled Drugs and Substances Act.

W.F.C.:

West Field Command (includes Divisions: D11, D12, D14, D22, D23, D31, D51, D52)

Cleared:

An offence can be considered cleared when a charge is laid, recommended or the person(s) who committed the offence has been identified and no charge has been laid for some reason.

Crimes Against the Person:

Crimes involving aggressive action (with the intent to do harm) or threat of such action by one person against another.

Crimes Against Property:

Unlawful acts with respect to property but which do not involve the use or threat of violence against an individual.

Crime Gun:

The National Weapons Enforcement Support Team (NWEST) defines a crime gun as "any firearm that is illegally possessed, used in crime or suspected to have been used in a crime, or has an obliterated serial number."

Feature

The categorized groups of expenditure types.

Level 3 Search:

A search that includes the removal of some or all of a person's clothing and a visual inspection of the body. More specifically, a Level 3 search involves removal of clothing that fully exposes the undergarments or an area of the body normally covered by undergarments (genitalia, buttocks, women's breasts). NOTE: The mere fact that portions of a person's body normally covered by undergarments are exposed because of the way the person was dressed when taken into custody does not constitute a Level 3 search, if the removal of such clothing was not caused by the police (e.g. the arrest of a naked person does not constitute a Level 3 search).

Level 4 Search:

A body cavity search. For the purpose of this document, a Level 4 search means a search of the rectum and/or vagina. A Level 4 search is only conducted by a qualified medical practitioner at a medical facility.

N.S.A:

Not Specified Area. Generally these relate to offences that have been reported to the Service, but which occurred outside Toronto or at an undetermined location.

Occurred:
